

FULLSAN FLAT
LOWER CLEANING COSTS
BETTER HYGIENE

siegling fullsan

homogeneous belts

Siegling Fullsan is the new product line of homogeneous, thermoplastic, polyurethane belts from Forbo Movement Systems.

All Siegling Fullsan belts are protected from contamination by oil, grease, moisture and bacteria.

Siegling Fullsan belts are very easy to clean and ideal for exceptionally hygiene-critical applications (dairy products, dough preparation, meat and poultry processing and other food-related areas).

- + Certified hygienic characteristics
- + Cost-efficient operation
- + Long service life due to superior mechanical and chemical resistance
- + Not reinforced (without cords) or reinforced (Pro version) with fully enclosed cords
- + Available with profiles and side walls

FULLSAN FLAT

LOWER CLEANING COSTS, BETTER HYGIENE

The Fullsan Flat series are friction driven using a pulley. Therefore, these belts make upgrading the hygiene of conventional conveyor particularly easy.
